Overview

The DeFi space has exploded in the recent months. Yield Farming, Staking and Liquidity Mining have taken the space by storm, with participants earning by basically "locking" their tokens for a time.

SafeClassic Protocol aims to solve the problems of prior cryptocurrencies including mining rewards, farming rewards, and liquidity provisioning. Mining equipment can be both costly and harmful to the environment, but mining remains of interest due to the opportunities afforded by it. As an easy alternative to mining rewards, we propose allowing users to participate in a smart contract token reflection to produce tokens inside their own wallet. Another challenge remains to facilitate and maintain liquidity on decentralized exchanges.

Token Reflection

SafeClassic resides within a class of token that rewards investors just for holding, the amount of rewards received increases over time the longer an investor holds for.

Traditional mining is both costly and inconvenient for the user. Frictionless, static reflection rewards accrue by simply holding your tokens, and features an innovative hold-farming reward structure that stands out from conventional pool-farming rewards. The idea behind this function is to eliminate token dependencies that have created problems in the past, including, but not limited to:

1. Pooling funds in unverified 3rd party smart contracts;
2. External website interfaces;
3. Transaction fees needed to claim rewards.

Token Economics

SAFE
CLASSIC

Symbol: \$SAFECLASSIC

Total Supply: 1,000,000,000

5% Bounty campaign

5% of Advisors

20% Founders and Team

35% Reserved Funding

35% Tokens for HebeSwap LP

Tax Fee

6% is Tax Fee

1% of tokens are burned

4% is Redistributed to all existing holders

1% is added to the SafeClassic Ecosystem Growth Fund

RoadMap

(Jan - Feb 2023)

CoinGecko listing, CoinMarketCap listing, 200 holders, Telegram 5000 members, Influencer marketing push

(Feb - Jun 2023)

300 holders, HebeSwap Farming Pool

(Jun - Dec 2023)

SafeClassic Staking release, SafeClassic Community NFT

(Jan - Jun 2024)

SafeBuyTech Bot realese, Influencer marketing push, \$150k LP, 1000 holders, 1 Airdrop for NFT Holders

(Jun - Dec 2024)

1 Airdrop for SafeClassic Holders, 2 Airdrop for NFT Holders, SafeJump (Launchpad platform on ETC) development, CEX Listing
